The PWRcell™ Battery Cabinet is a Type 3R smart battery enclosure that allows for a range of storage configurations to suit any need. DC-couple to Generac PWRzone solar or PWRgenerator.

The Energy Storage Battery Cabinet offers flexible capacity options (100kWh to 232kWh) with a long cycle life of 6000 cycles and up to 95% maximum conversion efficiency.

The battery system can control the water-cooled unit cooling, heating and temperature settings; The integrated energy storage battery cabinet meets IP54 protection level and supports the use in

Pixii MultiCabinet solutions are modular battery energy storage systems that scale to your needs. It comes with smart functionality like time shift and peak shaving to

This energy storage cabinet supports both on-grid and off-grid configurations, with harmonic distortion <3%. It complies with international standards such as

Professional manufacturer of outdoor cabinets, electrical distribution cabinets, telecom cabinets, data center cabinets, and industrial enclosures with IP55, IP65, IP66 protection ratings.

Pixii MultiCabinet solutions are modular battery energy storage systems that scale to your needs. It comes with smart functionality like time shift and peak shaving to reduce your energy cost, and it's

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications.

The PV grid-connected cabinet is a key power distribution unit that connects the solar photovoltaic array to

the power grid. Its primary function is to safely and compliantly feed the AC power?converted

It adopts intelligent temperature control and modular structure, supports flexible expansion and remote monitoring, integrates multiple safety protections, and can

It adopts intelligent temperature control and modular structure, supports flexible expansion and remote monitoring, integrates multiple safety protections, and can be efficiently used in scenarios such as

The ESS-GRID Cabinet series are outdoor battery cabinets for small-scale commercial and industrial energy storage, with four different capacity options based on different cell compositions, 200kWh,

This energy storage cabinet supports both on-grid and off-grid configurations, with harmonic distortion ?3%. It complies with international standards such as IEC/EN62109, IEC/EN62477, providing reliable

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications.
